

YEAR 3

SELECT YOUR COURSES

Third year students may register beginning on July 31st at 11:00 am.

All third year students MUST register for LPPR!

Course Number	Course Name	Term	Credits
3024	Professional Responsibility	1 & 2	3

In **third year** you are required to take at least **ONE** Perspective Course. A Perspective Course involves at least one paper worth at least 60% of the grade, comprising a minimum of 7,500 words (excluding footnotes and bibliography). These courses have limited enrolment and priority is given to students entering third year.

You must also choose several elective courses and more than one perspective course. Please keep in mind the following factors as you are choosing your electives and additional perspectives:

- You may participate for credit in **one moot competition** in each of second and third years, but no more than one per year, and you may not participate in the same moot twice.
- The Research Paper is available in both terms and you may select the term in which you will take the credit. The application form must be completed and submitted to the Rosa Muller.
- You **cannot** receive credit towards your J.D. for any courses taken anywhere during May to August without prior approval of the Associate Dean.

The following are the courses from which you may choose your electives. Because some have limited enrollment, please select enough courses to bring your total credits to at least 30 and then rank several alternative courses that fit your schedule in case you can not register in your first choices.
